Use what you have.
Try another way.

Resourcefulness means noticing what is nearby and finding a way forward.

YOUR CHALLENGE

Color the picture. Then draw one way to help the paper boat cross the puddle. You can use a block, scrap paper, or an idea of your own.

Draw a bridge, a stepping-stone path, or your own idea in the open puddle.

GROWN-UP PROMPT

Ask: What do we already have that could help? If the first idea does not work, what else could we try?

MATERIALS

You will need crayons or pencils. Optional: a few blocks or scrap paper to try ideas together.
